Dear Carol Hanlon,

I urge you to abandon the Yucca Mountain project. How can the Secretary of Energy be preparing to recommend Yucca Mountain for a high level nuclear waste dump when thousands of public comments on the Draft Environmental Impact Statement have not been addressed. Without a final Environmental Impact Statement, a detailed transportation scenario or licensing rule, the D.O.E. lacks the basis for consideration of site suitability. I do not have any confidence in this recommendation.

Sincerely,
M. Kathleen Best
